Increase in Program fees

Friends, as you may or may not know the state minimum wage will be increasing substantially over the course of the next 3-4 years and as a large employer of seasonal and hourly employees our department has been faced with some budgeting challenges. We do not want to cut services, reduce staffing levels or compromise our programs to close the budgeting gap. Unfortunately, this means we may need to increase the cost of our programs annually to keep up with the rising cost. We hope you will find these increases minimal, however a raise of any degree can be felt. If you have any questions regarding this message or our fees, please contact our offices. - OSPR

Each year, on the first Saturday of June, American Hiking Society and the trails community invite Americans of all ages and abilities to find their own adventure and discover their unique story at one of the thousands of events hosted throughout the country.
