### **How to start a game and where to find your game.**

1. When logged into to GameKnot, select the CLUBS tab at the top and enter the OSPR Chess Club.
2. The first player listed (Player 1) will head to GameKnot, select our Club, then select “start New Game.”
3. Days to move should be set to 2, however we would like our participants to play the game as quickly as possible.
4. Once the game is started, it will go to “Open Challenges” in our Club.
5. From there, our second person listed will be able to find the open challenge based on the username of whom they are set to play.
6. They will select that match and then play the game.
